

DUKE UNIVERSITY MEDICAL CENTER

CURRICULUM VITAE

Date Updated: 10.15.2021

Name: Andrea G. Nackley, Ph.D.

Primary academic appointment: Duke University

Primary academic department: Department of Anesthesiology

Secondary academic appointment: Department of Pharmacology & Cancer Biology

Present academic rank and title (if any): Associate Professor

Date and rank of first Duke Faculty appointment: January 1, 2016

Date of birth: September 11, 1975                      Place of birth: Hampton, VA USA

Citizen of: United States of America

<u>Education</u>	<u>Institution</u>	<u>Date (Year)</u>	<u>Degree</u>
High School	Mills E Godwin	1993	Diploma
College	Virginia Polytechnic Institute	1997	BS
Graduate School	Radford University	2000	MA
Graduate School	University of Georgia	2003	PhD

Scholarly societies:

2000-present Psi Chi

2000-present Society for Neuroscience

2001-2003 Neuroscience Student Organization (NSO)

2001-2002 Vice President, NSO

2002-2003 President, NSO

2002-present Sigma Xi: The Scientific Research Society

2004-present Women in Neuroscience

2005-present International Association for the Study of Pain (IASP)

2006-2019 American Pain Society (APS)

2012-2014 Co-Chair, Genetics and Pain Special Interest Group, APS

2015-2017 Nominating Committee, APS

2017-2019 Chair, Early Career Forum (ECF), APS

2018-present Association of University Anesthesiologists (AUA)

2019-present American Urogynecologic Society (AUGS)

2020-present United States Association for the Study of Pain (USASP)

Professional training and academic career:

<u>Institution</u>	<u>Position/Title</u>	<u>Dates</u>
The University of North Carolina at Chapel Hill	Postdoctoral Fellow	2003-2006
The University of North Carolina at Chapel Hill	Research Assistant Professor	2006-2008
The University of North Carolina at Chapel Hill	Assistant Professor	2008-2013
The University of North Carolina at Chapel Hill	Associate Professor	2013-2016
The University of North Carolina at Chapel Hill	Director, Molecular Profiling Core	2013-2016
Duke University School of Medicine	Associate Professor	2016-present

33. Ciszek B, Khan A, Dang H, Smith S, Bair E, Maixner W, Zolnoun Z, **Nackley AG**. microRNA expression profiles differentiate chronic pain condition subtypes. *Dental Research in Review Day*, UNC School of Dentistry, 2013.
34. Oladosu B, O'Buckley S, **Nackley AG**. Elucidating the role of MOR-1K in opioid-induced hyperalgesia via siRNA gene knockdown. *International Association for the Study of Pain*, Buenos Aires, Argentina 2014.
35. Ciszek B, Khan A, Dang H, Slade G, Smith S, Bair E, Maixner W, Zolnoun D, **Nackley AG**. MicroRNA expression profiles differentiate chronic pain condition subtypes. *International Association for the Study of Pain*, Buenos Aires, Argentina 2014.
36. Smith S, Diatchenko L, Maixner W, and **Nackley AG**. Genetic interaction between COMT and convergent molecular pathways influences COMT enzyme activity, musculoskeletal pain, and mood. *International Association for the Study of Pain*, Buenos Aires, Argentina 2014.
37. Oladosu F, O'Buckley SC, and **Nackley AG**. The effect of MOR-1 splice variation on morphine-dependent pain phenotypes. *Pierre Morell Research Day and Dental Research in Review Day*, Chapel Hill, NC, 2015.
38. Hartung JE, Eskew O, Wong T, O'Buckley SC, Oladosu FA, Tchivileva IE, and **Nackley AG**. Nuclear Factor-kappa B contributes to inflammatory pain and regulates COMT expression. *Pierre Morell Research Day and Dental Research in Review Day*, Chapel Hill, NC, 2015.
39. Ciszek BP, Khan A, Dang H, Slade G, Smith S, Bair E, Maixner W, Zolnoun D, and **Nackley AG**. MicroRNA and cytokine biomarkers for local and widespread pain conditions. *Translational Medicine Symposium and Dental Research in Review Day*, Chapel Hill, NC 2015.
40. Wang C, Oladosu F, and **Nackley AG**. The functional role of 41aa in MOR-1K receptor function. *Dental Research and Review Day*, Chapel Hill, NC 2015.
41. Geller EJ, Babb E, **Nackley AG**, Khan AA, and Zolnoun D. Prevalence and risk factors for pelvic pain following mesh implant surgery for the treatment of pelvic organ prolapse and stress urinary incontinence. Society of Gynecologic Surgeons, 41<sup>st</sup> Annual Scientific Meeting, Orlando, FL, 2015.
42. Ciszek BP, O'Buckley SC, and **Nackley AG**. Persistent catechol-O-methyltransferase-dependent pain is initiated, but not maintained, by peripherally located beta-adrenergic receptors. *American Pain Society*, Austin, TX 2016.
43. Oladosu F, O'Buckley SC, Marc Gutierrez, and **Nackley AG**. Strain-specific polymorphisms and their correlation to MOR-1K receptor function. *American Pain Society*, Austin, TX 2016.
44. Hartung JE, Ciszek BP, O'Buckley SC, and **Nackley AG**. Distinct mechanisms underlie the development and maintenance of COMT-dependent pain. *American Pain Society*, Austin, TX 2016.
45. Zhang X, Kozlowski J, Ballard H, and **Nackley AG**. Sustained activation of  $\beta^2$ - and  $\beta^3$ ARs leads to phosphorylation of neuronal MAPKs and activation of glial cells in spinal cord and DRG. *American Pain Society*, Pittsburgh, PA 2017.
46. Zhang X, O'Buckley S, and **Nackley AG**. Assessment of GCaMP Sensitivity of in vivo DRG neuron in COMT-dependent pain. *Duke Kunshan Translational Pain Research Symposium*, Kunshan, China 2017.
47. Zhang X, Kozlowski J, Ballard H, and **Nackley AG**. Activation of peripheral  $\beta^2$ - and  $\beta^3$ ARs leads to increased nociceptor activity. *American Pain Society*, Anaheim, CA 2018.
48. Zhang X, Kanter K, Smothers Z, O'Buckley SC, and **Nackley AG**. Independent and combined effects of low COMT and stress on pain, depressive-like behavior, and nociceptor activity. *International Association for the Study of Pain*, Boston, MA, 2018.

49. Scarneo S, Sell M, Totzke J, Hughes P, O'Buckley SC, Haystead T, and **Nackley AG**. Takinib, a selective TAK1 inhibitor, reduces TNF $\alpha$ -mediated pain and inflammation. *International Association for the Study of Pain*, Boston, MA, 2018.
50. Rawls A, Ciszek BP, Dang H, Slade G, Kanke M, Sethupathy P, and **Nackley AG**. MicroRNA Biomarkers associated with Chronic Pain, and Resolution of Pain in Man and Mouse. *Neural Environment in Disease Keystone Symposium*. Keystone, CO. 2019.
51. Zhang X and **Nackley AG**. The role of keratinocyte  $\beta$ 2AR in hyper pain sensation. *Somatosensation: From Detection to Perception Keystone Symposium*. Keystone, CO. 2020.
52. Scarneo S, Paul E, Zhang X, Hughes P, O'Buckley SC, Haystead T, and **Nackley AG**. Pharmacological inhibition of TAK1 reduces TNF-mediated pain and inflammation. *Pain: Aligning the Target Keystone Symposium*. Keystone, CO. 2020.
53. **Nackley AG**, Baldi R, and Geller E. Cytokines as Correlates of Pelvic Pain Following Mesh Implant Surgery. *American Urogynecologic Society's Pelvic Floor Disorders Week*, Vancouver, CA 2020.
54. Zhang X, Wang Y, Chen J, Kim S, Baldi R, and **Nackley AG**. A Novel Model of Functional Pain Syndromes that Integrates COMT Genetic Background, Stress, and Minor Surgery. *International Association for the Study of Pain*, Amsterdam, Netherlands 2021.
55. Scarneo S, Wang Y, Kim S, Hughes P, Haystead T, and **Nackley AG**. Elucidating the role of ectopic heat shock protein 90 (eHsp90) in inflammatory pain. *International Association for the Study of Pain*, Amsterdam, Netherlands 2021.
56. Hernandez N, Rawls A, Wang Y, Xhang X, Pan Y, Dang H, Slade H, Linnstaedt S, Parisien M, Diatchenko L, and **Nackley AG**. Acute stress and pain and the relationship between miR-374a-5p and its mRNA targets at the tissue-specific level. *Society for Neuroscience Abstract Viewer/Itinerary Planner CD-ROM*, Chicago, IL, 2021.
57. Wang Y, Scarneo S, Kim SH, Zhang X, Yang KW, Hughes P, Haystead T, and **Nackley AG**. Expression of ectopic heat shock protein 90 (eHsp90) in male and female primary afferent nociceptors regulates inflammatory pain. *Society for Neuroscience Abstract Viewer/Itinerary Planner CD-ROM*, Chicago, IL, 2021.

Consultant appointments:

2013-2014 Algnomics Personalized Pain Medications & Diagnostics

Professional awards and special recognitions:

2003 Herbert Zimmer Scholar: recognition of outstanding research accomplishments

2003 International Behavioral Research Organization Travel Award

2003 International Cannabinoid Research Society Travel Award

2003 University of Georgia Outstanding Teaching Assistant Award

2003 Sigma Xi Grants-in-Aid Research Grant

2005 International Association for the Study of Pain Travel Award

2005 Sigma Xi Outstanding Research Paper Award

2006 Postdoctoral Research Excellence Award

2010 John C. Liebeskind Early Career Scholar Award

2011 Arthur H. Wuehrmann Prize from The American Academy of Oral and Maxillofacial Radiology

Organizations and participation:

Service and Engagement Activities, University of North Carolina and Duke University:

2008-2016 Judge, Dental Research in Review Day poster session, School of Dentistry

2009-2016 Reviewer, NC TraCS Pilot Grant Program

2009-2016 Member, DDS/PhD Admissions Committee

2009-2016 Member, Oral Biology Regular Admissions Committee

2009-2016 Member, Oral Biology Executive Admissions Committee  
Director, Pain Neurobiology Track

2011-2016 Member, Biomedical & Biological Sciences Program (BBSP) Cell Signaling Admissions Committee

2012-2015 Member, Faculty Grievance Committee

2013-2016 Member, Curriculum in Neurobiology Recruitment Committee

2014-2016 Member, Promotion and Tenure Committee, School of Dentistry

2016 Judge, Duke Anesthesiology Academic Evening Research Symposium

2017 R01 Reviewer, Duke School of Medicine Path to Independence Program

2018 Judge, Duke Anesthesiology Academic Evening Research Symposium

2018 Mentor, K-Club and Path to Independence Grant Writing Workshop

2018-pres Coach, Academy for Building Leadership Excellence (ABLE) Program in Anesthesiology

2018-pres Member, Anesthesiology Appointment, Promotions, and Tenure Committee

2019-pres T32 Oversight Committee

2021-pre Chair, Dream Innovation Grant Review Committee

Service and Engagement Activities, Locally and Nationally:

2003-pres Co-founder of the Science for Kids Program, The University of North Carolina, Chapel Hill, NC

2012-2014 Co-Chair, Genetics and Pain Special Interest Group, American Pain Society

2014-2016 Member, Nominating Committee, American Pain Society

2015-pres Ad-hoc Reviewer, NIH (MESH, NIDCR, NIDA, SPS) Study Section

2017-2019 Co-Chair, Early Career Forum, American Pain Society

2020-pres Standing panel member for the NIH Neurobiology of Pain and Itch (NPI)

Peer Review Journals and Editorial Boards:

2006-pres Reviewer – *Anesthesiology*  
*Behavioral Brain Research*  
*BMC Genomics*  
*BMC Rheumatology*  
*Brain, Behavior, and Immunity*  
*Brain Research*  
*Cancer Epidemiology, Biomarkers & Prevention*

2020-pres Associate Editor *Frontiers in Pain Research- Pharmacological Treatment of Pain*

Invited Oral Presentations, Locally:

- 2006 Cannabinoids: role in therapeutics and drug addiction. Department of Psychology Seminar, Duke University, Durham, North Carolina.
- 2010 COMT modulation of pain sensitivity: a bench to bedside story. MD-PhD Seminar, UNC, Chapel Hill, North Carolina.
- 2012 Individualized treatment for TMD: a bench to bedside story. Dental Research in Review Day Lunch and Learn Seminar, UNC, Chapel Hill, North Carolina.
- 2012 Individual Variations in Pain Perception. COAST (Conferences on Orthodontic Advances in Science and Technology) meeting, UNC, Chapel Hill, North Carolina.
- 2013 Moving toward individualized treatment for chronic pain conditions. All Carolina Biosciences Celebration, Chapel Hill, North Carolina.
- 2013 Biomarkers for chronic pain. Carolina Neuroscience Club, Chapel Hill, North Carolina.
- 2013 MicroRNA markers of chronic pelvic pain. Department of OB-GYN meeting, UNC, Chapel Hill, North Carolina.
- 2014 Dysregulations in adrenergic signaling contribute to chronic pain. NCSU Veterinary School, Raleigh, NC.
- 2014 Dysregulations in adrenergic signaling contribute to chronic pain. Department of Anesthesiology, Duke University, Durham, NC.
- 2015 miRNA and pain. Pain Research Forum Webinar, NeuroDiscovery Center, Harvard Medical School.
- 2017 Contribution of  $\beta$ -adrenergic Receptors to Acute and Chronic Pain. Academic Career Enrichment Scholars (ACES) Program, Department of Anesthesiology, Duke University, Durham NC.
- 2021 Multidisciplinary approaches to the study of Chronic Overlapping Pain Conditions. Center for Perioperative Organ Protection (CPOP), Department of Anesthesiology, Duke University, Durham NC.

Invited Oral Presentations, Nationally and Internationally:

- 2011 COMT modulation of pain sensitivity: molecular genetic and receptor mechanisms. Seminar with the Hussman Institute of Human Genetics and the Department of Anesthesiology, University of Miami, Miami, Florida.

- 2013 A role for COMT and adrenergic systems in mediating pain. University of Kentucky, Lexington, Kentucky.
- 2013 Opioid-induced hyperalgesia: an emerging role for MOR-1K. Annual American Pain Society Meeting, New Orleans, Louisiana.
- 2013 Opioid-induced hyperalgesia: clinical evidence and basic underlying mechanisms. Symposium Moderator, 32<sup>nd</sup> Annual American Pain Society Meeting, New Orleans, Louisiana.
- 2014 Circulating microRNA signatures of chronic pain. Annual American Pain Society Meeting, Tampa, FL.
- 2014 Basic science of opioid-induced hyperalgesia. Pain Society of the Carolinas Annual Meeting and Scientific Sessions, The Charleston Place Hotel, Charleston, South Carolina.
- 2014 Basic science of pelvic pain. Pain Society of the Carolinas Annual Meeting and Scientific Sessions, The Charleston Place Hotel, Charleston, South Carolina.
- 2014 Molecular profiles of site-specific vs. general chronic pain. The TMJ Association's Seventh Scientific Meeting on Genetics and Epigenetics of Temporomandibular Disorders and Related Overlapping Conditions, Bethesda, Maryland.
- 2017 Biological and clinical features of vulvodynia. Vulvodynia Conference. Department of Obstetrics and Gynecology at Howard University Hospital. Washington, DC.
- 2017 Differential contributions of peripheral, spinal, and central adrenergic systems to pain. Annual American Pain Society Meeting, Pittsburgh, PA.
- 2017 Common and unique pathways of vulnerability for overlapping pain conditions. Translational Pain Research Symposium, Duke Kunshan University, China.
- 2017 Etiology of pelvic pain. Pain Society of the Carolinas Annual Meeting and Scientific Sessions, The Charleston Place Hotel, Charleston, South Carolina.
- 2018 Peripheral mechanisms driving chronic functional pain. Department of Korean Medical Science, Pusan National University, Busan, Korea.
- 2018 Genetic and biological signatures of chronic overlapping pain conditions. Pain Clinic, Seoul National University, Seoul, Korea.
- 2018 Acupuncture resolves functional pain and neuroinflammation linked to abnormalities in catecholamine signaling, Conference on Trends in Meridian and Acupoint Studies, Seoul, Korea.
- 2018 Peripheral adrenergic mechanisms driving chronic functional pain, University of Cincinnati, Cincinnati, Ohio.
- 2020 New targets to treat pelvic pain. Society of the Carolinas Annual Meeting and Scientific Sessions, Omni Grove Park Inn, Asheville, NC.
- 2020 Vestibulodynia: Subtype-specific biomarkers for diagnosis and treatment. IASP's Pain Research Forum Virtual Webinar Series.

Teaching responsibilities:

Graduate Course Participation:

- 2006-2013 Co-Instructor, OBIO 723/732: Oral Biology Pain Seminar Series, Department of Oral Biology, The University of North Carolina, Chapel Hill, NC. (20 students; Dentistry, Oral Biology, Pharmacology, Neurobiology)
- 2008-2016 Lecturer, OBIO 720: Advanced Topics in Oral Biology, Department of Oral Biology, The University of North Carolina, Chapel Hill, NC. (20 students; Oral Biology)
- 2011-2016 Co-Instructor, PHCO 702: Principles of Pharmacology, Department of Pharmacology, The University of North Carolina, Chapel Hill, NC. (20 students; Pharmacology)

- 2012-2015 Co-Instructor, First Year Group, Biological and Biomedical Sciences Program, The University of North Carolina, Chapel Hill, NC (25 students; Neurobiology, Pharmacology, Immunology).
- 2014-2016 Course Director, OBIO 723/732 / NBIO 732 / PHCO 747: Introduction to Pain Neurobiology, Department of Oral Biology, The University of North Carolina, Chapel Hill, NC. (20 students; Dentistry, Oral Biology, Pharmacology, Neurobiology, Physiology)
- 2014-2016 Course Director, OBIO 733 / NBIO 733 / PHCO 748: Translational Pain Medicine, Department of Oral Biology, The University of North Carolina, Chapel Hill, NC. (20 students; Dentistry, Oral Biology, Pharmacology, Neurobiology, Physiology)
- 2014-2016 Co-Instructor, DA 36: Dental Pharmacology, Department of Dentistry. The University of North Carolina, Chapel Hill, NC. (80 students; Dentistry)
- 2016-pres Co-Instructor, OBIO 733 / NBIO 733 / PHCO 748: Translational Pain Medicine, Department of Oral Biology, The University of North Carolina, Chapel Hill, NC. (20 students; Dentistry, Oral Biology, Pharmacology, Neurobiology, Physiology)

Undergraduate Research Mentoring Projects Supervised:

- 2006-2008 Undergraduate Advisor  
Matthew Conrad  
Biology 395  
Project Title: *“Catecholamine separation and quantification using HPLC-MS.”*  
Recipient of a 2008 Research Commendation in Biology
- 2008 Undergraduate Advisor  
Dustin Prusik  
Biology 395  
Project Title: *“Role of RGS2 and RGS4 in COMT-dependant pain sensitivity.”*
- 2009-2010 Undergraduate Advisor  
Nikita Goel  
Psychology 395  
Thesis Title: *“The effects of catechol-O-methyltransferase inhibition on expression of nitric oxide synthase subtypes.”*  
Recipient of a 2010 Highest Honors with Distinction in Psychology
- 2009-2011 Undergraduate Advisor  
Edina Wang  
Psychology 395  
Thesis Title: *“The role of NF- $\kappa$ B in modulating COMT expression and pain behavior.”*  
Recipient of the 2010 Carolina Summer Fellowship Award
- 2012-2014 Undergraduate Advisor  
Olivia Eskew  
Biology 395  
Thesis Title: *“COMT expression and pain behavior in IKK-deficient mice.”*
- 2014 Undergraduate Advisor  
Julia Fuller  
Biology 395  
Thesis Title: *“The interaction between COMT inhibition and exercise in mice.”*
- 2014-2015 Undergraduate Advisor  
Naseeruddin Ahmed  
Biology 395  
Thesis Title: *“Kinase activation in a model of COMT-dependent pain.”*
- 2014-2015 Undergraduate Advisor

- Michael Batres  
Chemistry 395  
Thesis Title: *“The interaction between COMT and exercise.”*
- 2014-2016 Undergraduate Advisor  
Marc Gutierrez  
Chemistry 395  
Thesis Title: *“MOR-1K gene expression in genetically diverse mouse strains.”*  
2015 Recipient of a UNC Summer Undergraduate Research Fellowship  
2015 Recipient of the William and Ida W. Taylor Honors Mentored Research Fellowship
- 2016-2017 Undergraduate Advisor  
Harrison Ballard  
Neuroscience 493  
Thesis Title: *“The role of GRK2 in resolving COMT-dependent pain.”*
- 2016-2018 Undergraduate Advisor  
Julia Kozlowski  
Neuroscience 493  
Thesis Title: *“Characterizing MAPK phosphorylation in glia and neurons in an animal model of functional pain.”*  
Graduated with distinction, for her thesis work
- 2016-2018 Undergraduate Advisor  
Katie Kanter  
Neuroscience 493  
Thesis Title: *“Genetic predictors of analgesic response to opioid drugs.”*  
2017 Recipient of the Summer Neuroscience Program Fellowship
- 2018-2019 Undergraduate Advisor  
Emily Paul  
Neuroscience 493  
Thesis Title: *“Examining the link between chronic pain and depression: a role for TAK1?”*
- 2019-pres Undergraduate Advisor  
Alan Wang  
Pharmacology 493  
Thesis Title: *“miRNA dysregulation in chronic pain.”*
- 2019-pres Undergraduate Advisor  
Viraj Patel  
Neuroscience 493  
Thesis Title: *“Adipocyte gene regulation.”*  
2020 Recipient of the Summer Neuroscience Program Fellowship
- 2021 Undergraduate Mentor  
Andrew George  
Am Soc for Pharm & Exper Therapeutics Undergraduate Research Fellowship (ASPET-SURF)  
Thesis Title: *“Adrb3 gene regulation in a mouse model of chronic pain.”*

Post-Baccalaureate Research Mentoring Projects Supervised:

- 2008-2010 Sean Wentworth  
Center for Pain Research and Innovation  
*“Using confocal microscopy to localize expression of MOR-1, MOR-1K, and  $\beta$ 2-adrenergic receptors in HEK293 cells.”*  
Current Position: Practicing MD
- 2010-2011 Jesse Rhodes

Center for Pain Research and Innovation  
“*Analysis of cytokines and transcription factors associated with temporomandibular disorders and widespread palpation tenderness.*”

Current Position: Practicing MD

- 2011-2012    Brittney Ciszek  
Center for Pain Research and Innovation  
“*Peripheral contribution of  $\beta$ -adrenergic receptors to chronic COMT-dependent pain.*”  
Current Position: Dental Resident at the University of Utah  
Recipient of the 2012 Doctoral Merit Assistantship for study in Biological and Biomedical Science and the 2012 BBSP Director’s Award.
- 2018-2020    Clementine Adyemi  
Center for Translational Pain Management  
“*Assessing depression and anxiety in a mouse model of chronic pain.*”  
Current Position: PhD student at the University of Cincinnati

Masters Thesis Research Committees:

- 2005-2007    Graduate Thesis Committee Member  
Jason Lambert, DDS  
Department of Endodontics  
Thesis Title: “*Effects of minor SNPs on enzymatic activity regulated by common human haplotypes of the catechol-O-methyltransferase gene.*”  
Current Position: Practicing Endodontist  
Recipient of the 2007 American Association of Endodontists Oral Presentation Award
- 2007-2009    Graduate Thesis Committee Member  
Elizabeth Chanenson, DDS  
Department of Endodontics  
Thesis Title: “*Genetic basis for individual variation in pain perception among endodontic patients.*”  
Current Position: Practicing Endodontist
- 2013-2015    Graduate Thesis Committee Member  
Jennifer Harmon  
Department of Dental Hygiene  
Thesis Title: “*Circulating omentin-1 and chronic temporomandibular disorder pain.*”  
Current Position: Practicing Endodontist  
Recipient of the 2015 Outstanding Student Post-doctoral Award

Predocutorial Dissertation Research Committees:

- 2008-2010    Graduate Thesis Committee Member  
Samantha Segall, BS  
Department of Genetics  
Dissertation Title: “*COMT enzymatic function and pain perception in common inbred strains of mice.*”  
2009 Recipient of the Turner Student Award in Recognition for Excellence in Dental Research  
2011-2013 NextGen Postdoctoral Research Fellowship
- 2008-2013    Graduate Thesis Committee Member  
Jason Goldsmith, BS  
Department of Pharmacology  
Dissertation Title: “*The role of IL-22/STAT3 signaling in MOR-mediated intestinal injury response.*”
- 2012-2016    **Graduate Advisor**

**Brittney Ciszek, BS**

Curriculum in Oral Biology

Thesis Title: *"The site of action of chronic COMT-dependent pain."*

Current Position: Dental Resident at the University of Utah

2012 Recipient of the UNC Director's Award

2012 Recipient of the UNC Merit Fellowship

2013 Acceptance into the Translational Medicine Program (HHMI funded award)

2014 Recipient of the Freedland Advanced Dental Education Fellowship

2016 First-place recipient of the 24th Annual Duke Anesthesiology Academic

Evening's *Excellence in the Pre-Doctoral Non-Medical Student* category

2012-2016

**Graduate Advisor**

**Jane Hartung, BS**

Curriculum in Neurobiology

Thesis Title: *"The role of  $\beta$ ARs in mediating the activation of neurons, microglia, and astrocytes following sustained COMT inhibition."*

Current Position: Postdoctoral Fellow at the University of Pittsburgh

2013 Recipient of the NextGen T32 Training Grant Award

2014 Recipient of the NIH/NIAMS F31 Grant Award

2013 Recipient of the UNC Graduate Mentorship Award

2011-2016

**Graduate Advisor**

**Folabomi Oladosu, BS**

Curriculum in Neurobiology

Thesis Title: *"The role of MOR-1K in opioid-induced hyperalgesia."*

Current Position: Medical Writer, Chicago

2012-2015 Recipient of an NIH/NINDS R01 minority supplement

2015 Recipient of the Dissertation Completion Fellowship Award

2017-2018

Graduate Thesis Committee Member

Alexander Chamessian, BS

Departments of Pharmacology, Cancer Biology, and Anesthesiology

Thesis Title: *"The cellular determinants of peripheral and spinal pain processing."*

2017-2019

Pre-medical Research Thesis Advisor

Zachary Smothers, BS

School of Medicine

Thesis Title: *"Role of *Adrb3* in mediating nociception."*

2018 Duke's Charles D Watts Travel Award to the American Pain Society Scientific Summit

2017-2020

**Graduate Advisor**

**Scott Scarneo, BS, MBA**

Department of Pharmacology and Cancer Biology

Thesis Title: *"TAK1 inhibition for treatment of pain."*

Current Position: Director of Biology, EydisBio Inc

2018 Best Poster Award, Duke Academic Evening

2020 Keystone Symposia Scholarship

2018-pres

Graduate Thesis Committee Member

Alyssa Bernanke

Department of Pharmacology and Cancer Biology

Thesis Title: *"Brain circuitry underlying conditioned taste aversion in males and females."*

2019-pres

Graduate Thesis Committee Member

Ouyang Chen

Department of Cell Biology

Thesis Title: “*The extracellular microRNA let-7b act as a neuromodulator for nociceptive transmission.*”

2021-pres

**Graduate Advisor**

**Nathaniel Hernandez, BS**

Department of Pharmacology and Cancer Biology

Thesis Title: “*Epigenetics of chronic overlapping pain conditions.*”

Other Research Committees:

2007

Graduate Rotation Advisor

Allison McMullen, BS

Department of Pharmacology

Project Title: “*A role for GRK2 and GRK6 in catechol-O-methyltransferase-dependent pain sensitivity.*”

2010

Kate White

Pharmacology

Doctoral Written Exam Committee

2010

Tyechia Culmer

Pharmacology

Doctoral Written and Oral Exam Committee

2011

Daniel E. Bonder

Neurobiology

Qualifying Exam Committee

2011

Graduate Rotation Advisor

Cortney Winkle, BS

Curriculum in Neurobiology

Project Title: “*The effects of COMT inhibition and swim stress on pain behavior in mast cell-deficient mice.*”

2014-2016

Pre-dental Research Advisor

Connie Wang, BS

Dentistry

Project Title: “*Genetic regulation of Mu opioid receptor expression.*”

2014 Recipient of the Short-term Summer Research Fellowship

2015 Recipient of the AADR Student Research Fellowship

2015

Daniel Bloodgood

Neurobiology

Qualifying Exam Committee

2019

Graduate Rotation Advisor

Ashleigh Rawls, BS

Department of Pharmacology and Cancer Biology

Project Title: “*MicroRNA biomarkers associated with chronic pain and pain resolution.*”

Current Position: PhD student in PCB at Duke

2020

Graduate Rotation Advisor

Christina Caira, BS

Department of Pharmacology and Cancer Biology

Project Title: “*Blood, adipose, and spinal cord immune cell phenotypes linked to functional pain.*”

Postdoctoral Fellows

2016-2020

Xin Zhang, PhD

Project Title: *“Role of  $\beta$ ARs in nociceptor activity, neuroinflammation, and chronic pain.”*

Current Position: Assistant Professor of Anesthesiology at Nanjing Medical University in China  
Adjunct Assistant Professor of Anesthesiology at Duke

2017 Recipient of the APS Young Investigator Travel Award

2017 Best Poster Award, Duke Kunshan Translational Pain Research Symposium

2018 Recipient of the APS Young Investigator Travel Award

2018 Best Poster Award, APS, Pain & Genetics Special Interest Group

2018 Best Poster Award, Duke Academic Evening

2020 Keystone Symposia Scholarship

2016-2017 Seungtae Kim, PhD

Project Title: *“Acupuncture treatment in an animal model of chronic functional pain.”*

Current Position: Associate Professor of Korean Medicine at Pusan National University

2020-pres Yaomin Wang, PhD

Project Title: *“Complimentary approaches to resolve chronic functional pain”*

Areas of research interests (basic and applied) - list:

1. Functional genetics.
2. Gene regulation (e.g., microRNAs and alternative splicing).
3. Pain neurobiology.
4. Behavioral pharmacology.
5. Preclinical models of clinical pain.
6. Biomarkers for diagnosis and treatment of clinical pain conditions.

External support - gifts, grants, and contracts:

a) Past:

NIH/NICHHD Grant # K12 HD052191 “Multidisciplinary Clinical Research Career Development Award”.  
PI: E Orringer; Scholar & Project PI: AG Nackley 75% effort. Total Award: \$88,718.

NIH/NCRR Grant # KL2 RR025746 (This grant is a continuation of K12HD052191) “UNC Clinical  
Translational Science Award- K12 Scholars Program”. PI: E Pisano; Scholar & Project PI: AG Nackley 75%  
effort. Total Award: \$75,000.

NIH/OBSSR Grant # R24 DK067674 “UNC Gastrointestinal Biopsychosocial Research Program”. PI: D  
Drossman and W Whitehead; Scholar & Project CO-PI: AG Nackley 75% effort. Total Award: \$37,500.

National Vulvodynia Association & TMD Association “Proinflammatory Cytokine Profiles Associated with  
Functional Subgroups of Patients with VVS and TMD”. PI: AG Nackley and D Zolnoun 30% effort. Total  
Award: \$35,000.

NC TraCS Institute Grant # 50 KR20929 “Characterizing the Role of a Newly Identified u1OR Isoform in  
Opioid-induced Behavioral Phenotypes”. PI: AG Nackley 30% effort. Total Award: \$50,000.

NIH/NINDS Grant # 3 R01 NS072205-01A1S1 “Persistent COMT-dependent Pain: Role of  $\beta$ -adrenergic  
Pathways” (Research Supplement to Promote Diversity in Health-Related Research Programs). PI: AG  
Nackley, No cost to the grant. Total Award: \$167,311.

NIH/NINDS Grant # 1R01 NS072205-01A1 “Persistent COMT-dependent Pain: Role of  $\beta$ -adrenergic  
Pathways”. PI: AG Nackley 30% effort. Total Award: \$1,261,195.

NIH/NINDS Grant # 5P01 NS045685-07 “Complex Persistent Pain Conditions: Common and Unique  
Pathways of Vulnerability”. Program Director: W Maixner, PI (Molecular Profiling Core): AG Nackley %  
effort, CO-PI (Etiology and Modeling Core): AG Nackley 22% effort. Total Award: \$6,015,584.

UNC NCTraCS Grant # 50 KR81417 “Extended Release Local Anesthetics for the Treatment of Dental Pain” PI: AG Nackley. Total Award \$50,000.

NIH/NIDCR Grant # T32 DE017245 “Clinical Research Training in Oral Diseases for Future Clinicians”. PI: JD Beck, Mentor: AG Nackley. No cost to the grant. Total Award: \$347,731.

NIDCR/NIH Grant # T90 DE021986 “Training Program for the Next Generation of Oral Health Researchers (NextGen)”. PI: JD Beck, Mentor: AG Nackley. No cost to the grant. Total Award: \$306,513.

NIH/NIAMS Grant # F31 AR067671 “The Role of TNF-alpha and MAP Kinases in the Maintenance of COMT-dependent Pain.” Student: JE Hartung, Mentor: AG Nackley.

NVA Grant “Identification of microRNA Targets Altered in Distinct Subtypes of Vestibulodynia” PI: AG Nackley. Total Award \$30,000

NIH/NIDCR Grant # 5U01 DE017018-07 “Risk Factors for Onset and Persistence of TMD.” CO-PI: W Maixner, Investigator: AG Nackley 10% effort. Total Award: \$18,559,810.

NIH/NIDCR Grant # R56 DE025296-01 “Proteins, MicroRNAs and Genes Associated with TMD and Overlapping Conditions.” PI: A Nackley, 30% effort. Total Award: \$560,000.

Duke Dream Innovation Grant (DIG) “A Molecular Exploration into Comorbid Chronic Pain and Obesity.” PI: A Nackley. Total Award: \$30,000.

Duke Clinical & Translational Science Institute (CTSI) Duke/RTI Collaborative Grant “A New Peripherally-restricted ADRB3 Antagonist for the Treatment of Chronic Pain and Inflammation.” PI: A Nackley, 2% effort. Total Award: \$50,000.

NIH/NINDS Grant# R03 NS106166 “Defining the role of adipocyte ADRB3 in chronic pain.” PI: A Nackley, 10% effort. Total Award: \$200,000.

b) Present:

NIH/NICHHD Grant# R01 HD096331 “Vestibulodynia: Understanding Pathophysiology and Determining Appropriate Treatments (Vestibulodynia: UPDATE).” PI: A Nackley, 25% effort. Total Award: ~\$3,500,000.

NIH/NINDS Grant# R01 NS109541 “Defining the role of peripheral ADRB3 in chronic pain and inflammation.” PI: A Nackley, 30% effort. Total Award: ~\$3,500,000.

NIH/NCCIH Grant# P01 AT009968 “Resolution of Neuroinflammation and Persistent Pain by Complementary Approaches.” PD: W Maixner, Project 2 PI: A Nackley, 25% effort. Total Award: ~\$8,500,000.

NIH/NINDS Grant# R03 NS123731 “Assay development for characterization of ADRB3 antagonists as pain therapeutics.” PI: Gay (RTI), Co-I: Nackley. 4% effort. Total Award: ~\$150,000.

US Patent Pending: Pct/US2009/054300. “Alternatively-Spliced isoform of mu-Opioid Receptor Gene with cell excitatory Function.” Luda Diatchenko, William Maixner, Pavel Gris, Jose Gauthier, Andrea G. Nackley.

US Patent Pending: Pct/US2005/026201. “Methods and Materials for Determining Pain Sensitivity and Predicting and Treating Related Disorders.” Luda Diatchenko, William Maixner, Gary Slade, Andrea G. Nackley.

US Patent: 9,943,466 B1. “Biocompatible Dental Putty Formulations for Controlled Release of Bupivacaine.” Johnson L, Rothrock G, Shepherd S, O’Buckley SC, Nackley AG.

US Provisional Patent: 63/141,794. “TAK1 Inhibitor for Pain and Inflammation.” Scott Scarneo, Timothy A. J. Haystead, Philip F. Hughes, Andrea G. Nackley.
